

Listing cars on OPENLANE just got easier...

Want to keep your turn tight in 2010? Export your inventory to OPENLANE and you're just a click away from making your aged or trade-in units available to thousands of active buying dealers.

OPENLANE has launched the "Partner Assisted Listing Service" (PALS), and has partnered with the leading online vehicle listing, merchandising and marketing companies to receive your aged and trade-in wholesale inventory and pictures automatically.

The process couldn't be easier:

1. Ask your inventory management partner to export your inventory to OPENLANE – or send us an e-mail at pals@openlane.com and we'll take care of it.
2. Once we get the data, your cars will be automatically loaded to "Pending Release".
3. Login to OPENLANE, set the wholesale pricing and release to auction – that's it!

There are never any listing fees on OPENLANE, so there's nothing to lose! If you don't see your partner in the list below – tell your dedicated OPENLANE account representative and we'll work to connect with them.
